CORE EXPERIENCE

Senior DevOps and infrastructure engineer with 8+ years in IT. Since 2020, I have worked at SMS-Information Technologies on CI/CD, infrastructure operations and service automation.

Senior DevOps & Infrastructure Engineer

SMS-Information Technologies LLC

Feb 2024 - present | Samara, Russia

- Build and support TeamCity CI/CD for 50+ services: build, test, artifact publishing and deployment to Linux and Windows environments.
- Automate deployment and operational work in PowerShell, Bash and Python; reduce manual involvement by 50-70%.
- Operate 30+ Linux and Windows servers, Docker workloads, PostgreSQL backup flows and S3-compatible storage.
- Standardize environments, directory layout, logging and health checks, making release operations 2-3 times faster and more reliable.

EDUCATION

Samara State Technical University
Higher education, Mathematical
Support and Administration of Information Systems
2017

AI Foundations, Applied AI Foundations, Agents
and Workflows (OpenAI), 2026
Google AI, 2026

CAREER AT SMS-INFORMATION TECHNOLOGIES

Senior Implementation Service Specialist

SMS-Information Technologies LLC

Dec 2021 - Jan 2024 | Samara, Russia

- Implemented and supported an enterprise platform for large customers (KOT Cloud, 2021-2024).
- Troubleshot application, OS, network, reverse proxy and database incidents; worked with Windows/Debian, IIS, .NET Core, PostgreSQL, Redis, Docker, Ceph and MinIO.

Implementation Service Specialist

SMS-Information Technologies LLC

Sep 2020 - Nov 2021 | Samara, Russia

- Prepared SCADA and analytics platforms (InfoCont, 2020-2023), performed load testing and administered Windows Server and PostgreSQL.
- Worked with Docker, Ceph, MinIO and S3 storage; contributed to monitoring and backup configuration.

ADDITIONAL PROJECT EXPERIENCE

Infrastructure / DevOps Engineer - HPC

Samara State Technical University

Mar 2026 - Jun 2026 | Short-term concurrent project, Samara, Russia

- Delivered and supported three 10-node HPC clusters for engineering and research workloads.
- Configured Ceph, Slurm, shared storage and scratch directories for VASP and Gaussian workloads.
- Configured SONiC networking, VLANs and MTU; managed server lifecycle through IPMI, iDRAC, BMC and Redfish API.

EARLIER EXPERIENCE

Implementation & Technical Support Specialist

InfoPro Group of Companies

Sep 2017 - Aug 2019 | Samara, Russia

- Implemented software for the energy sector and configured business workflows, reports and calculation scenarios.
- Automated data collection from external sources and worked with SQL, PostgreSQL and MS SQL Server.
